NO COMPROMISES.

NOTHING SHORT OF AN UN-
CONDITIONAL REPEAL.

CLEVELAND VICTORS CONGRESSION.

The Closure Rule Regarded Unfavorably
The Most Popular Compromise Propo-
sition—Preparations for the En-
forcement of the Geary Law
In Progress—Lack of
Funds.

WASHINGTON, Sept. 11.—President
Cleveland, it is claimed to-day, abso-
lutely refuses to consent to grant
any concessions on the silver fight.
More than this he will not promise to
agree to any recognition of silver even
should the repeal bill be passed. This
is the sum and substance of his position
as reported by senators who had
conferred with him yesterday. It
renewed the confidence of the friends
of unconditional repeal, who asserted
last evening their unwavering faith
in the final passage of the measure.

The publication of the feeling of
compromise that was in the air, led a
good many Southern senators to hope
and believe that there might be some
way for them out of their troubles.
The thorough debate in the senate is
arousing the people of these sections
and letters are beginning to pour in
appealing to them to stand out against
the proposed legislation. Aware of
this condition, they waited with eager
interest the report from the president.
When the latter's position became
known it caused a temporary cessation
of the compromise talk.

With the understanding that the
president is upon the platform of un-
conditional repeal or nothing, the sena-
tors have settled themselves down for
a long siege. In the meantime
the Democrats in the senate, who are
concerned for their party will make a
careful canvass and see if votes can-
not be secured for some measure that
will command sufficient votes to in-
sure its passage. There will be plenty
of time to mark this point, for enough
speeches are already in course of
preparation to occupy three or four
weeks if they are needed. They will
not be delivered in their lengthy en-
tirety if at any moment the votes ne-
cessary to the passage of some con-
cessions are secured.

One by one the senators who have
openly expressed themselves in favor
of unconditional repeal—and they are
nearly three-fifths of the United States
senate—have been consulted as to the
advantage of the closure rule, and
the result has been that less than
thirty of the eighty-five have ex-
pressed themselves in favor of resort-
ing to such extreme measures. This
startling innovation from the tradi-
tions of the senate, therefore, will not
be a part of the record to be left be-
hind by this extraordinary session.

The proposition meeting with the
greatest favor, provides that coupled
with the bill repealing the purchasing
clause of the Sherman act, there shall
be a law directing the secretary of the
treasury to buy monthly a consider-
able amount of silver bullion and to
actually coin this bullion into
money. The secretary of the treas-
ury is also to be given ample power
to protect all gold and currency and
money of the United States, and to
make them interchangeable. In addi-
tion to this national banks of the
United States are to be permitted to
issue national notes to an aggregate
equal to the face value of United
States bonds on deposit. Concessions
to state banks are also discussed.

It is doubtful, indeed, whether any
—that no single one of the propo-
sitions could receive a majority
vote of the senate if the proposition
stood alone and unlinked with the
kindred legislation which is to accom-
pany it. For the proposed compromise,
each faction would secure slight con-
cessions and some consolation from
the warfare that has been so stub-
bornly waged for unconditional re-
peal and each would retire from the
conflict free from the onus of defeat
and with the laurels of a partial vic-
tory to be placed to its credit.

TO ENFORCE THE GEARY LAW.
Such Preparation Is Being Made by the
Treasury Officials.

WASHINGTON, Sept. 11.—There is
every indication that the Geary law
for the exclusion of the Chinese will
be enforced with vigor as soon as the
funds at the disposal of the government
are made adequate by an ap-
propriation. Meanwhile inspection officers
will be instructed by circular to be
issued to-day or Monday to execute
the act to the full extent permitted by
the existing appropriation.

In case the law is rigidly enforced,
Yung Yu, the new Chinese minister to
this country, will, it is said, withdraw
to China. For the past forty-eight
hours he has been besieged with tele-
grams from Chinese subjects through-
out the country asking for a verifica-
tion of the report that President
Cleveland and his cabinet had decided
to put the Geary law into effect.

There is some fear evidently that
the Chinese government will retaliate
when an attempt is made to enforce
the act. At any event the arrange-
ments made for strengthening the
army at the Chinese station are
significant. The gun boat Concord is
now on the way to China and the
Petrel has also been ordered there.
The cruiser Baltimore is also on the
way to China.

his house had burned to the ground
and all five of the children cremated.

THIS WEEK IN CONGRESS.

Program of Proceedings of the Senate
and House.

WASHINGTON, Sept. 11.—The senate
during the present week will devote
itself almost entirely to the discussion
of the repeal bill. Possibly there may
be an occasional break in the monot-
ony caused by taking up some other
subject during the morning hours, but
the calendar affords very little scope
for diversion in this respect. The
calendar is, indeed, one of the briefest
of publications these days, owing
to the fact that general com-
mission action has been suc-
cessful in the interest of the legislation
on the Sherman act. It contains two
or three bills providing for the settle-
ment of government claims, three res-
olutions for the payment of the ex-
cess of recent claimants to seats in
the senate, Senator Morgan's resolu-
tion for a Senate compromise, a half
dozen measures of minor importance
repealed from the committee on public
lands, Senator Hill's bill for the re-
peal of the federal election law, and
Senator Voorhees' repeal bill and his
bill for the removal of the tax on state
banks.

Mr. Voorhees decided more than a
week since that it would be inac-
cidental to push his bill in the interest
of national banks until the more im-
portant repeal bill should be disposed
of, and his repeal bill has been laid
aside to allow the house measure to be
discussed until the senate is ready for
action, when, if the unconditional re-
peal is reached, the Voorhees bill will
probably be substituted for the bill
which comes from the other end of
the capitol. Recognizing, as he does,
the supreme importance of financial
legislation, Senator Hill will not at-
tempt to secure consideration for his
anti-federal election law bill until the
question of repeal is completed.

These are the only subjects of na-
tional importance before the senate
except Senator Peffer's resolution con-
cerning the reserves of the New York,
Philadelphia and Boston banks.
The outlook for the week is, there-
fore, one of solid talk on the financial
situation, with the bill repealing the
purchasing clause of the Sherman law
as a basis. Senator Teller's speech
began Saturday and will be continued to-
day. Senator Mitchell, of Oregon,
has given notice of a speech on com-
merce. Senators Hansbrough and
Sherman for speeches Wednesday and
Senator Daniel for a speech Thurs-
day. Other speeches sufficient to oc-
cupy the time of the senate for the
week are known to be in preparation.
A part of the day Wednesday will
be devoted to colleges of the late Sen-
ator Stanford, of California.

In the house there is nothing of im-
portance on the horizon for the week
except the ways and means, banking
and currency and appropriation com-
mittees, which are now considering under
a resolution passed when the committees
were announced. None of the other
house committees have had a meeting.
Not a bill has been reported.

This leaves the house without a
calendar, and, therefore, unable to go
ahead with the consideration of legis-
lative matters, except by unanimous
consent.
